## PROFILE

I am a front-end web developer with an eagerness to bring quality ideas to life and build customer-centric products. I portray a positive attitude to work and adapt quickly to new people and technologies. As a Front-end Web Developer, I specialize in creating user-friendly, interactive, responsive, beautiful, and functional websites and web applications optimized for user experience. Additionally, I have basic knowledge of backend technologies like MongoDB, Express, and Node.js, and I am proficient in implementing APIs on the frontend.

## WORK EXPERIENCE

### ASDesigns
